Summary

Data-driven engineer specializing in ML systems, knowledge graph pipelines, and applied AI. Built **MediFast AI** — a RAG-powered medicine intelligence platform over a **169K-record knowledge graph with 1.3M+ relationship edges** — improving semantic search accuracy by **18 percentage points**. Experienced in end-to-end data pipelines, predictive modeling, and full-stack AI product development. **Top-24 nationwide** at Cognizant Technoverse 2026 (2000+ teams).

Projects

MediFast AI

Node.js, Python, MongoDB, ChromaDB, LangChain, BM25, OpenStreetMap

github.com/Ruchin-Audichya/medifast-bot

- Architected a **RAG** pipeline combining **BM25 sparse retrieval** and **ChromaDB dense vector search** with **Xenova/all-MiniLM-L6-v2** embeddings; boosted medicine search match rate from **29.7% → 47.7%** across multilingual, typo-tolerant, and symptom-based queries.
- Engineered a domain-specific **medicine knowledge graph** — **169K+ entity records, 681K+ side-effect entries, 1.3M+ relationship edges** — with ChromaDB embeddings for low-latency semantic retrieval.
- Designed **session-aware retrieval reranking** over per-user family health profiles (MongoDB), dynamically weighting recommendations by allergy and condition history at query time.
- Implemented **geospatial pharmacy discovery** via MongoDB **2dsphere** + OpenStreetMap across **10K+ locations**; radius-based ranking cut irrelevant results by ~30% in user testing.

Placify AI

Python, FastAPI, React, Node.js, PostgreSQL, CatBoost, AWS

github.com/shriya-gakhar1/Minor-Project

- Developed end-to-end **ML classification pipeline** (CatBoost + feature engineering) on **5,000+ student records**; achieved **84.7% accuracy** and **94.5% ROC-AUC**, outperforming SVM and logistic regression baselines.
- Built **ETL workflows** ingesting and transforming placement data into a **PostgreSQL** data warehouse; surfaced KPIs and cohort analytics via interactive **React dashboards**.
- Delivered a **FastAPI** microservice for real-time resume parsing, automated skill-gap analysis, and personalized upskilling recommendations.

Experience

Data/ML Intern — Data & Backend Systems

Dec 2025 – Mar 2026

SecretEye Telematics (Early-stage GPS-Fleet Startup)

- Designed **20+ RESTful API endpoints** (Express.js + MongoDB) across 6 operational entities, enabling **real-time dashboard aggregation** and replacing 4 manual spreadsheet workflows.
- Built **social data ingestion pipelines** across Reddit, Instagram, Facebook, LinkedIn, and X/Twitter, capturing content metadata and engagement signals for internal analytics workflows.
- Delivered a full-stack **Tauri + React + TypeScript** desktop platform unifying CRM, HR, finance, and project management into a single operational data layer.

Technical Lead — Cloud & AI Community

Sep 2023 – Present

AWS Cloud Club, JECRC University

- Automated **AWS cloud lab provisioning** via Boto3 (EC2, S3, IAM), eliminating repetitive manual setup across student environments.
- Conducted cloud architecture and Git workshops reaching **1,000+ students** across JECRC and partner universities.

Technical Skills

Programming: Python, SQL, TypeScript, JavaScript, Java, C++

Data Engineering & Analytics: ETL Pipelines, Data Modeling, Data Warehousing, PostgreSQL, MongoDB, ChromaDB, Geospatial Indexing, REST APIs, Dashboard Development

ML & AI: RAG, LangChain, Vector Databases, Embeddings, NLP, CatBoost, Scikit-learn, PyTorch, Feature Engineering, Prompt Engineering, Knowledge Graphs, Hugging Face, LLMs

Cloud, Backend & DevOps: AWS (EC2, S3, IAM), Boto3, Node.js, FastAPI, Express.js, Flask, Docker, Terraform, CI/CD, Git

Education

JECRC University

Aug 2023 – Jul 2027

B.Tech Computer Science Engineering — AWS Cloud Specialization

CGPA: 8.2/10

Coursework: Data Structures & Algorithms, DBMS, Operating Systems, Computer Networks, Machine Learning

Achievements & Certifications

- **Cognizant Technoverse 2026** — Grand Finale qualifier; **Top 24 nationwide** out of **2,000+ teams** with MediFast AI.
- **Smart India Hackathon 2024** — Prelims Top 10 Finalist. **LeetCode/Codeforces:** Solved 250+ DSA problems.
- **AWS Certified Cloud Practitioner** | **AWS Certified AI Practitioner** | **ServiceNow CSA** | **ServiceNow CAD**
