Computer Science undergraduate with experience building scalable ML-powered systems, backend applications and cloud solutions using Python, Java and AWS. Strong foundation in Data Structures, Algorithms, Object-Oriented Programming and problem solving with hands-on work in NLP, predictive modeling, ETL pipelines and AI-powered systems.

250+ DSA Problems Solved — 20+ GitHub Repositories — Software Engineering Intern

EDUCATION

JECRC University

Jaipur, India

B.Tech Computer Science Engineering (AWS Cloud Specialization)

Aug 2023 – Jul 2027

Current CGPA: 8.2/10

Coursework: Operating Systems, Machine Learning, Data Structures, Algorithms, DBMS, Computer Networks

WORK EXPERIENCE

Secret Eye

Dec 2025 – Present

Software Engineering Intern

- Constructed scalable ML-powered SocialNet platform analyzing real-time trends from YouTube, Google Trends and Twitter using web scraping, NLP and Flask APIs
- Designed robust ETL/data pipelines achieving 90% relevance accuracy and improving insight generation speed by 40%
- Integrated responsive React frontend emphasizing production-grade engineering, scalability and system design

AWS Cloud Club JECRC

Sep 2023 – Present

Content Head & Technical Lead

- Automated AWS EC2, S3 and IAM provisioning workflows using Python and Boto3
- Conducted cloud infrastructure and Git workshops impacting 100+ students

PROJECTS

Placify AI — React, Node.js, PostgreSQL, AWS

[GitHub](#)

- Built scalable placement platform processing 5000+ placement records
- Designed backend APIs and ETL pipelines reducing manual effort by 70%
- Built CatBoost prediction model achieving 87–91% accuracy
- Developed AI-powered resume parsing and analytics dashboards

MediFast AI Agent — Node.js, Express, MongoDB

[GitHub](#)

- Developed multilingual AI assistant supporting real-time medicine recommendations
- Built backend APIs and optimized workflows for user interactions
- Selected among finalist teams at Cognizant Technoverse 2026

SKILLS

Programming Languages: Python, Java, SQL, JavaScript, C++

AI/ML: PyTorch, TensorFlow, Hugging Face, Scikit-learn, LangChain, CatBoost, NLP, Pandas, NumPy

Data Engineering: ETL Pipelines, Data Processing, Web Scraping

Backend: Node.js, Flask, Express.js, REST APIs

Cloud & Tools: AWS, Docker, Terraform, Git/GitHub, MongoDB, PostgreSQL

CS Fundamentals: Data Structures, Algorithms, OOP, DBMS, Operating Systems, Computer Networks

Soft Skills: Leadership, Team Collaboration, Documentation, Problem Solving

CERTIFICATIONS

- AWS Certified Cloud Practitioner
- AWS Certified AI Practitioner
- ServiceNow CSA
- ServiceNow CAD

AWARDS & ACHIEVEMENTS

- Smart India Hackathon 2024 — Top 50 National Finalist
- Cognizant Technoverse 2026 — Finalist
- Contributed to open-source projects and actively participated in AWS Cloud Club and DevCrest Student Community
- Conducted technical workshops impacting 100+ students
- Solved 250+ DSA problems and maintained 20+ GitHub repositories
